Introduction

This bibliography lists all the publicly available papers of which we are aware, that have made original use of the data from the Workplace Industrial Relations Surveys (WIRS) Series. This series includes the 2004 Workplace Employment Relations Survey, the 1998 Workplace Employee Relations Survey, as well as previous Workplace Industrial Relations Surveys of 1980, 1984 and 1990.

The following types of publication are separately listed:

‘Sourcebooks’ reporting the primary analysis carried out by the research team for the sponsoring bodies

Other books wholly based on data from the WERS series

Book chapters

Working papers

Journal articles

Mimeos

Conference presentations

Reports

Doctoral theses

Dissertations

Note that where the title of a publication is enclosed in *asterisks* this indicates that the publication is a technical report or methodological paper.

This pdf version of the bibliography is periodically updated. The bibliography is also available as an online database. This can be used to search for publications by type, author or title of publication. Users are advised to consult the [WERS research web pages](#) in order to check for the most recent additions to the database.

Authors are invited to send a copy of any new or forthcoming publications to us, so that the database is as comprehensive as possible. Details of new work can be entered via an [online form](#), or emailed to wers2004@niesr.ac.uk
